

Injectable IM

TripleDefense IM - Glutathione, Ascorbic Acid, and Zinc Sulfate

Studies have shown that the combination of these three supplements is remarkable! They are known for immune system support, antioxidant protection, and overall wellness.

Dose CAD 30

ShapeUp IM - Methionine, Chloride, Vit B1, Vit B6, Vit B12, Inositol, L-Cartinine

Numerous studies have shown that this is great for supporting weight loss and burning unwanted fat. It promotes liver and brain function, lowers cholesterol, enhances athletic performance, and alleviates muscle inflammation and damage. Additionally, studies have shown that it exhibits anti-cancer properties.

Dose CAD 30

MethylB12Pro – Methylcobalamin

Research shows that it boosts energy levels, supports brain function, and promotes a positive mood. Additionally, methylcobalamin has been associated with regulating homocysteine levels that's good for heart health.

Dose CAD 30

BiotinLixer – Biotin

According to research, Biotin plays a crucial role in supporting healthy hair, skin, and nails, promoting their strength and vitality. Studies have shown that it aids in the metabolism of carbohydrates, fats, and proteins, contributing to energy production and overall metabolic health.

Dose CAD 30

Glutathione

Studies have shown that Glutathione can reduce oxidative stress, may improve psoriasis, and may reduce cell damage in alcoholic and non-alcoholic fatty liver. Research also shows it can improve insulin resistance, and may reduce the impact of uncontrolled diabetes and reduce respiratory symptoms.

Dose CAD 30

NAD creation - Nicotinamide Adenine Dinucleotide

Research shows NAD+ offers multiple benefits, including supporting energy production, promoting anti-aging effects, and providing neuroprotection. Studies also indicate that it plays a vital role in cellular metabolism, DNA repair, and brain function.

Dose CAD 30
